While still below peak levels reached in 2015-2016, Arizona exports to Mexico have been somewhat stable in recent months.

**$641 mil/mo**
**AZ EXPORTS TO MEXICO**
the average $ value for latest three months, Aug-Oct 2018, is **up 5.6%** from the average for the previous three months, and is **up 1.4%** from a year ago.

Despite recent gains, commodities travelling via Arizona BPOE are continuing a downward trend since 2014.

**$2.2 bil/mo**
**COMMODITY FLOWS TO MEXICO VIA AZ BPOE**
the average $ value for latest three months, Aug-Oct 2018, is **down 0.6%** from the average for the previous three months, and is **up 0.8%** from a year ago.

U.S. fresh produce imports from Mexico via Arizona BPOE experience this seasonal decline every year. Annual fresh produce trade volume remains relatively consistent despite recent declines in imports of non-agricultural products.

**$85 mil/mo**
**FRESH PRODUCE VIA AZ BPOE**
the average $ value for latest three months, Aug-Oct 2018, is **down 71.1%** from the previous three months, and is **down 2.0%** from a year ago.

Economic and Business Research Center, Eller College of Management, The University of Arizona
Regardless of near-term declines, persons crossing the Arizona-Mexico border continue an upward trend since recession-related declines that bottomed out in 2012.

Vehicle border crossings (personal vehicles+buses+trucks) also continue a steady upward trend since hitting a 2012 post-recession bottom, even though recent months are down.

After a short period of improvement, the peso appears to be losing value in recent months.
